

# Provide Superior Safety & Protection in Harsh DC Traction Applications

## The New Cooper Bussmann® 1200V DC Fuse Allows Maximum Protection Performance for Traction Applications

- Extremely Low Let Through Energy
- Very High DC Voltage Capacity in Highly Inductive Loads
- Blown Fuse with Visual or Remote Indication
- Bladed Terminals
- Industry Standardized Fuse Size: Size 72 (Cooper Bussmann® 2<sup>+</sup>)
- Typical Applications:
  - 1200V DC and Below Circuits
  - Light Rail / Heavy Rail
  - DC Link/Power Converters
- Fully RoHS Compliant

# 1200V DC Traction Fuse Specifications

**Catalogue Symbol:** 170F82XX  
**Description:** DC Traction Fuse  
**Construction:** Ceramic fuse body with silver element and silver plated copper end caps  
**Ampere Rating:** 160 to 420A  
**Voltage Rating:** 1200V DC  
**Interrupting Rating:** 100kA at L/R = 15ms  
**RoHS Status:** Compliant

## Dimensional Data

## Catalogue Numbers

Size	Current Rating (Amps)	Interrupting Rating	Max I <sup>2</sup> t @ 1000V		Watts Loss In (W)	Catalogue Numbers
			L/R = 15ms	L/R = 45ms		
2+	160	@ 1200VDC = 100kA L/R = 15ms,	12000	20000	75	170F8230
