Notes

- ¹ These frames are obsolete. For replacement solutions, see the cross-reference on **Pages V12-T3-114–V12-T3-167**.
- ² DC ratings apply to substantially non-inductive circuits.
- ³ Not UL Listed.
- ⁴ All four poles have thermal-magnetic trip elements. Can be supplied with three protected poles and one unprotected, non-automatic pole if required. Order by description with no price or dimensional differences.
- ⁵ 15–30A rated 75,000 AIC. 40–100A rated 30,000A asymmetrical, 25,000A symmetrical.
- ⁶ Two-pole breakers are supplied in three-pole frames with current carrying parts omitted from center pole.
- ⁷ Includes line and load terminals. MARK 75 frame color changed from gray to black in mid-2002.
- ⁸ Switching duty rated for 277 Vac fluorescent light applications only.
- ⁹ Interrupting capacities shown do not apply to molded-case switches.
- ^j Ratings above 10,000A not UL Listed.
